

# Small Orgonite Pendant with Turquoise

Turquoise possesses a strong healing effect, comforting the soul and endowing the body with wellness.

*Orgonite pendant from Orgonise Africa – for effective protection from radiation and energetic well-being.*

## Turquoise ...

As a protection stone (e.g. for journeys), turquoise has found its place in amulets since time immemorial. It seeks harmony and balance between body and mind. It helps the soul to express itself anew. It shows how the shaping of life proceeds and depends upon what we do in every single instant.

Turquoise possesses a cleansing effect. It expels negative energy and brings our energy centers into harmony. In the traditional sense, it is the stone that unites Heaven and Earth and brings together masculine and feminine energies. It is sensitive and balancing. At the physical level, turquoise is a true source of power. On the emotional level, it evens out mood fluctuations and facilitates inner peace.

## Orgonite ...

... produced from a mixture of resin, metal and crystals, it possesses the ability to collect negative frequencies and transform them into positive energy. Negative radiation, such as that emitted from a cellphone, cordless phone, or radar, is miraculously absorbed and eventually turned into clean orgone energy.

## Orgone energy ...

... is the life energy, all-pervasive and omnipresent, which was familiar to earlier societies. Hinduism, for example, refers to it as Prana, Buddhism calls it Chi, our German ancestors spoke of Vril, and to the Greeks it was the Ether, which even today remains a very common term.

Wearing an orgonite pendant over the heart or throat chakra protects our bioenergetic field (aura) from electromagnetic radiation and psychological influences: >> Orgonite pendants offer effective everyday personal protection and are easy to wear. Orgonise Africa applies specially adjusted combinations of healing stones, metals and other energetic components, which are strengthened with orgonite, allowing them to develop their full effect.

## Use:

The pendant optimally exhibits its effects on the throat chakra, though it can also be used on the heart chakra. Only wear the turquoise pendant on the body for a short time, or use it for specific purposes as needed (e.g. on journeys).

Apart from the decorative dolphin theme, this pendant contains the following components:

- ✓ **Orgonite with turquoise** (*protection from electromagnetic radiation, stimulating effect*)
- ✓ **Mini SBB coil** (*to stimulate the chakras*)
- ✓ **Amethyst** (*promotes clear thinking and improves concentration ability*)
- ✓ **Quartz crystal** (*carries vibrations, strengthens frequencies*)
- ✓ **Garnet** (*general stimulating effect and encourages metabolism*)
- ✓ **Chrysoprase** (*supports the detoxification process. Grants security and strengthens faith in God*)
