

MUTI Pendant L

Large pendant with African medicinal herbs called MUTI

For protection from EMR radiation, protection black magic and psychic attacks. For more grounding and connection to mother nature

MUTI is the African term for traditional medicine. Our MUTI is prepared by a traditional African healer in South Africa.

This beautiful Orgonite Pendant is a powerful protector against electromagnetic radiation (EMR) and other negative energies and etheric interference. All of our Orgonite Pendants strengthen bioenergetic field (Aura), revitalise body and protect from harmful influences such as electromagnetic radiation (EMR) or negative energies.

This beautiful new Orgonite creation contains the MUTI Powder of our spiritual healer "NaDlonge". In addition, quartz crystal, black tourmaline, garnet and African hematite from Kuruman. On the back, an SBB coil stimulates and clears your heart chakra while you wear the MUTI Orgonite Pendant around your neck (or place it on affected areas for specific healing purposes).

The MUTI Orgonite Pendant comes in a lovely pouch of original ShweShwe fabric to make sure you store it away nicely and do not scratch the polished surface of the orgonite. All ShweShwe fabrics are 100% cotton!

*Our **MUTI** is provided by Sangoma and Spiritual healer NaDlonge*
