

"Hand of Peace"

A beautiful orgonite pendant that strengthens the aura field & offers effective protection against electromagnetic radiation (EMF).

Orgone amulets from Organise Africa – for effective radiation protection and energetic well-being.

Wearing an orgone amulet on the body protects our personal energy field from psychic and electromagnetic influences. It is small enough to wear comfortably around your neck, yet its effect is substantial and completely sufficient. Each of the orgone amulets offers different protection and support, depending on its material composition.

"Hand of Fatima" is a symbol of peace and reconciliation that is revered in the Middle East by both Muslims and Jews. The combination of the symbol with the orgonite matrix and special ingredients creates a powerful protective amulet that strengthens your aura field and protects it from negative energies. Orgonite offers effective protection against electromagnetic radiation (EMF) emitted from displays, cell phones, smartphones, computers and WLAN devices.

The orgonite pendant is shipped in a small cotton case made from original African ShweShwe fabric. The case is ideal for storing the amulet: it shields it against unsightly scratches and protects the surface when it is not used for a long period of time. Wear the orgonite pendant comfortably around your neck. The practical sliding knot allows flexible adjustment of the included fabric cord.
